B.Tech, Computer Science and Engineering
Address : Alappat kottoly house p.o kattoor

Summary

Dual-degree student pursuing a B.Tech in Computer Science at Amrita Vishwa Vidyapeetham and a B.Sc in Data Science from IIT Madras. Driven by an innovative mindset to engineer creative, "outside-the-box" solutions using emerging technologies. Recognized as a collaborative leader with strong problem-solving skills and the adaptability to excel in fast paced, high-pressure environments.[Portfolio Website](#) [LinkedIn](#)

Education

Amrita Vishwa Vidyapeetham, Amritapuri B.Tech · Computer Science and Engineering · Amritapuri	2027 CGPA - 9.34/10
Indian Institute of Technology Madras B.Sc · Data Science and Programming · Madras	May 2023 - Present
Vimala Central School Class XII - CBSE · bimpc · Thanissery	2022 Percentage - 91%
Vimala Central School Class X - CBSE · bimpc · Thanissery	2020 Percentage - 97%

Experience

AECOM Consortium Certificate Link Software developer · Developer · Internship Worked on development of AI - based predictive maintenance tool. The tool assists in taking preventive actions based on failures reported during operations.	Jan 2026 - May 2026 Kochi
---	------------------------------

Publications

An Open and Reproducible Multimodal AI Framework for Skin Disease Diagnosis Using Public Vision and Biomedical Language Models Elsevier Procedia Journal Designed and implemented the MAGE-V-Pro multimodal diagnostic framework integrating DINOv2 visual encoders and PubMedBERT clinical text embeddings. · Implemented a FiLM-based cross-modal fusion mechanism achieving 95.71% diagnostic accuracy.	Dec 2025
---	----------

Awards

Winner Epochon 2.0 Agentic AI Hackathon Certificate ACM STUDENT CHAPTER · ACM Winner of Epochon 2.0 Agentic Hackathon	Feb 2026
2nd Runner Up National Level Hackathon LinkedIn Post OLABS Hackathon · Amrita CREATE	Mar 2025
2nd Position in Inter-Amrita Elocution Competition Certificate Kalotsav · Amrita University	Oct 2025
Toastmaster Debate Competition Winner Certificate Toastmasters Amritapuri · Toastmasters	Mar 2026

Projects

Nyaya-Sarathi Github	
Epochon 2.0 Agentic AI Hackathon · Python, LangGraph, Groq, Gemini, Whisper	Agentic AI
- Built a Python multi-agent deliberation backend using LangGraph and a custom MCP-style messaging protocol, orchestrating 5 specialized agents (Advocate, Skeptic, Legal Advisor, Arbiter, Consensus) through multi-round adversarial debates with JSON-based inter-agent communication. - Integrated 3 LLM/retrieval providers (Groq gpt-oss-120b, Gemini 2.5 Flash, Tavily) behind a unified client layer, routing each agent role to the most cost- and latency-appropriate model and adding safe JSON parsing to recover from malformed LLM outputs. - Engineered role-specific prompt templates and a confidence-scoring + refusal-logic layer that grades each grievance on a 0–100 legal strength scale and pauses action under high uncertainty – addressing the over-confidence failure mode of single-LLM agents. - Developed a multimodal I/O pipeline combining Groq Whisper (whisper-large-v3-turbo) speech-to-text intake with a Markdown-aware ReportLab generator that exports structured legal complaints as portal-ready PDF reports.	
Comprehensive Management Software for Kochi Water Metro (Lead) Github	Nov 2025 - Nov 2025
Software Engineering Project · Python, HTML, Jinja Templating	Web
Developed and deployed a Flask-based web application for Kochi Water Metro, enabling unified access for passengers, employees, and administrators.	
Developed virtual Science lab to be integrated with Olabs online lab platform (Lead)(2nd runner up National Hackathon) Github	Feb 2025 - Mar 2025
OLABS Hackathon · HTML, CSS, JavaScript	Web
Engineered an affordable VR/AR lab using HTML, CSS, and JS. Pioneered "fusion reality" to provide immersive, low-cost education for a national audience.	
Smart City Using IoT devices (Lead) Github	Nov 2024 - Nov 2024
C project · Arduino, ESP-32	IoT
Developed a smart ecosystem featuring self-driving cars and traffic systems. Integrated Arduino and ESP32 for real-time navigation and ambulance tracking.	

Certifications

Foundation in Data Science and Programming Certificate	Sep 2024
IIT Madras	
Introduction to Cloud Computing Certificate	Oct 2025
Infosys	

Competitions

SIH Internal Hackathon	Sep 2025
Winner	
ICSRF National Hackathon	Oct 2025
Finalist · Sustainable development	

Extra Curricular Activities

E-Commerce	Aug 2023 - Dec 2023
Assisted in marketing and maintenance of an E-commerce startup.	
Public speaking & Anchoring	Jan 2025 - Jan 2026
Served as the Master of Ceremonies for campus-wide events	

Skills

Programming Languages: Java, Python, C++ , HTML, CSS, JavaScript

Areas of Interest: Public Speaking, Giving Presentations

Technical Skills: Problem Solving

Languages

English [Professional Working Proficiency], Malayalam [Native Proficiency], Hindi [Elementary Proficiency]
